

**“Diversity in Europe is not only a matter of language, but also cultural and educational [...] We therefore advocate for harmonisation that respects diversity”**  
–Philippe Neyret & Søren Overgaard–

## LEARN

through the **full congress experience** from clinical & hands-on courses to Policy work:

- Abstract oral presentations / ePosters
- Live-streamed sessions: Covid-19, Robotic Assisted Surgery, Hip & Knee revision surgery, Women in Orthopaedics, Implant & Patient Safety Initiative...
- Featured Programme, incl. Comprehensive Review Course & Full Day on THR/TKR
- Awards

## NETWORK & ENGAGE

with the O&T Community, and step into a **virtual exhibition**:

- NEW: Vote for the Best National Papers
- Share best practices
- Improve knowledge
- Innovate products & procedures

## SCIENCE & NEW LEARNING FORMAT

The **Main Theme “Harmonisation & Diversity”**: The **Bioskills@EFORT Evening Lab**:

- Barriers To Implement Strong Scientific Evidence: Why Such Diversity?
- Diversity In Clinical Outcome Assessment
- Reproduce The Diversity In Treatment Of Anterior Shoulder Instability, the *Erwin Morscher Honorary Lecture* by G. Walch

- Surgical film studio operation “Pilon and Proximal Tibia Fractures”
  - ➔ Hands-on skill training on fractured anatomical specimen
  - ➔ Demonstration & development of medical technology solutions

★ Join us live everyday at the EFORT TV Studio ★
